

Weatherproof Outdoor Enclosure

Applications

This enclosure is intended for outdoor installations of pet containment systems. It is specifically designed to mount an Invisible Fence® transmitter and lightning protector on exterior walls or structures where protection from weather and debris is required.

Description

The enclosure offers a durable, weatherproof housing with dedicated entry points for both an extension cord and conduit. Inside, a flat mounting surface allows for secure placement of electronic components. Once installed, the lockable lid and dual latches help ensure equipment stays protected and tamper-resistant in exposed environments. A 1/2-inch PVC conduit adapter and locking ring are included for convenience.

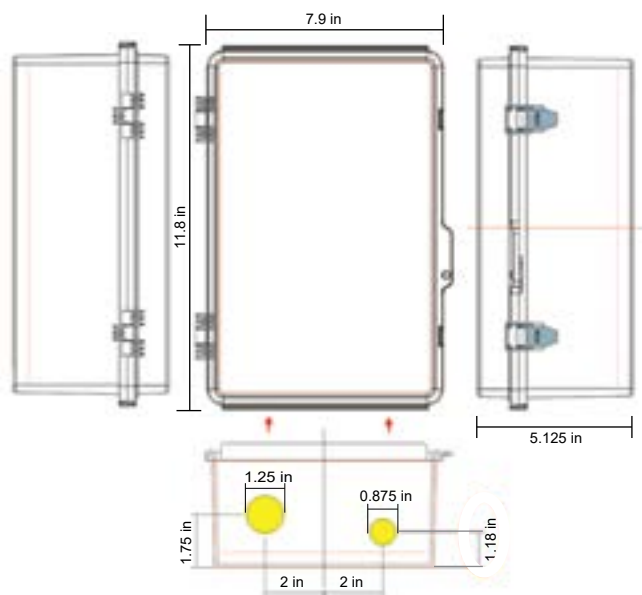

Ordering Information

Item #	Description
DBON001	Weatherproof Outdoor Enclosure

Features & Benefits
